

## What You Need to Know

### You have the right to ...

- **Choose a health plan, primary care provider (PCP) and request a care coordinator that fits your needs.** If you are not happy with your health plan in the first 90 days of coverage, you may pick a different plan. You can also request to change your care coordinator or PCP. Health plans can be changed during the annual open enrollment period as well.
- **Have an appointment when you need one.** You can also request an appointment with a specialist, with a prior authorization, when needed.
- **Request an emergency prescription be filled for 72 hours** for a drug requiring prior authorization if a prior authorization cannot be obtained outside of health plan business hours.
- **Request your health plan arrange for non-emergent medical transportation** so you receive medically necessary services.
- **File a grievance through the Member Service department at your plan if you are not satisfied with how your are treated.** You can expect to be notified of the outcome.
- **Know why your plan denies service/treatment and take action to reverse a decision.** Have your provider request a peer to peer review and/or appeal if your plan has denied, stopped, or reduced treatment or services you *and* your provider think you should get. Request a fair hearing, after completing the plan's appeal process, if your plan has denied, stopped or reduced treatment or services you and your provider think you should get. Look in your health plan Member Handbook under **Grievances and Appeals** or visit your health plan's web page to learn more.
